

EVERYONE WANTS TO GO TO THE MOON, BUT NOBODY WANTS TO BUILD A ROCKET

## VREE PLATFORM

This story begins with two ambitious engineers with a goal; creating a Platform that extends everyday reality to the possibilities of unlimited potential.

VREE has been active in the VR education and training market for 5 years. The company has developed VR training courses for the Ministry of Defense, the fire service and the police, but also for various technical courses and companies such as Philips.
